Overview: HIPAA compliance is becoming more of a concern now than it was prior to the Health Information Technology for Economic and Clinical Health (HITECH) Act. The HITECH Act not only imposed new compliance obligations, and stiffer penalties for non-compliance, on covered entities and their business associates, but it also opened the door for a new wave of government enforcement actions as the Act gave state governments the express authority to file suit in federal district on behalf of state residents for HIPAA violations. There were also several developments in 2011 which point to a renewed focus on HIPAA enforcement.

Desired Learning Outcomes: At the completion of this learning activity, participants should be able to:

- Modify their current HIPAA policies to comply with the HITECH Act.
- Promote awareness and proper procedures among their staff to improve compliance with the protection and security of PHI (Protected Health Information).

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Education (ACCME). The Chicago Medical Society is accredited by the ACCME to provide continuing medical education for physicians.

The Chicago Medical Society designates this live activity for a maximum of **1.0 AMA PRA Category 1 Credit (s)**[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The following planning members of the Chicago Medical Society’s CME Committee have disclosed that they have no relevant financial relationships with any commercial interests: Vickie Becker MD, Chairman, Robert Rodrigues, MD, Planning Member, Babu Arekapudi, MD, Howard Axe, MD, Course Director, and Cecilia Merino, Director of Education.
